July 6, 2022 | Project Update No. 3

This letter is being sent to inform you of construction activity on the above-referenced project.

#### **IF YOU ARE A LANDLORD, PLEASE SHARE THIS NEWSLETTER WITH YOUR RENTERS/TENANTS.**

So far this week (starting July 5<sup>th</sup> through July 8<sup>th</sup>) the contractor has been installing water main pipe on 2<sup>nd</sup> Street (from Ann Street working north). Later this week the contractor will be finishing water main on 2<sup>nd</sup> Street. Next week (starting July 11<sup>th</sup>) the contractor will have an additional crew that will follow behind installing drain tile in the boulevard and subcutting the road for the new aggregate section on 2<sup>nd</sup> Street. The other crew will be doing some additional water main leads on 2<sup>nd</sup> Street and Main Street.

Temporary water should be complete by the end of the week and just a reminder to please not move the temporary water lines. You may carefully trim next to the hoses and pipes, but please do not mow over them. In certain locations, these temporary water lines may cross the street and/or driveways. Gravel will be placed over the top of these lines so that vehicles can safely drive over them.

Survey stakes are being placed on the construction site. **Destruction or alteration of survey stakes results in slowing the work and additional cost to the city.**

This is also the time to remind everyone that anything within the public right of-way (approximately 20 feet behind the edge of bituminous pavement) is in jeopardy of being damaged and/or removed. This includes landscaping, sprinkler or pet containment systems, etc. Sprinkler and pet containment systems are considered "private" facilities. Locating them and marking them in and near the right-of-way is the property owner's responsibility. It would be helpful for those of you who have sprinkler or pet containment systems to contact me so that we are made aware of them. Any damage to those systems as a result of failing to locate and mark them will be the property owner's responsibility.

**If you are interested in receiving future Project Updates by email, please send your name, property address, and email address to Julie Brinkman at [jbrinkman@sehinc.com](mailto:jbrinkman@sehinc.com).**

If you have any questions or concerns, feel free to contact me or Project Engineer Doug Scott. Have a great week!

Dalton Kosek, Resident Project Representative
